

Both my husband and I enjoy listening to K-Love in our local community. We live in a rural area in N. California and it is difficult to get good reception. K-Love comes in great. K-Love and one other news station are the only stations that we listen to. I have tried other radio stations and none compare to K-Love. I support and have been listening to K-Love for years. Another LPFM broadcaster would have a negative impact on our local community. K-Love sends a positive and uplifting message. Many listeners call in and share the benefits of listening to K-Love. My family has and is currently benefiting from listening to K-Love. Please do not do anything that would jeprodize our ability to get this station in our local area. Thank You
